If Your Child Is Not Yet Potty Trained

If your child is not yet potty trained, we kindly ask that one parent remain nearby so that, in the event of an accident, your child can be cared for promptly and comfortably.

For health and safety reasons, our teachers are not able to clean or change students. Since they also assist children with snacks and handle food, it would not be hygienic to move between food service and diapering. While our staff take hygiene very seriously, even a single mistake could compromise the well-being of all students.

We also recognize that every parent knows their child best. If you feel confident your child will remain comfortable for a couple of hours after being changed, you may step out and return later to check in. Please keep in mind, however, that if an accident does occur, staff will contact you, but will not be able to assist with changing.

We appreciate your understanding and cooperation in helping us maintain a clean, safe, and healthy environment for all children.
